
IMPACT OF SIGIR OPERATIONS

SIGIR's work impacts many aspects of the U.S. mission in Iraq and the Government of Iraq. To validate the financial or non-financial benefits resulting from SIGIR work, SIGIR requires the staff to document the connection between the benefits reported and the work performed. SIGIR recommendations have enabled U.S. and Iraqi reconstruction management officials to:

- reduce expenditures and improve efficiency and effectiveness
- implement or improve fund and asset controls
- enhance construction quality by ensuring adequacy of design specifications, stopping inadequate construction, and avoiding re-work
- increase potential oil revenue
- avoid waste and unnecessary expenditures

IMPACT OF SIGIR AUDITS

SIGIR reports the financial impact of audits semiannually, as required by law. Through April 30, 2008, SIGIR Audits saved and recovered funds of about \$57.9 million and improved the use of \$40.0 million of funds. SIGIR Audits also challenged payments of \$7.56 million, including possible duplicate payments, overpayments, or for work that was not completed. This is an increase of \$32.2 million in dollars put to better use since the SIGIR July 30, 2007 Report. Most of the savings (\$29 million) resulted from a SIGIR recommendation that the Defense Contract Audit Agency (DCAA) review contractor invoices for the Iraqi Police Training Program. For a detailed list of these financial impacts, see Table B-1.

Significant non-financial benefits include those associated with a recommendation that Kellogg Brown and Root Services, Inc. (KBR) discontinue the practice of routinely marking almost all of the information it provides to the U.S. government as "KBR proprietary data." The government's prohibition of this practice results in improved accountability (improved management and internal controls).

IMPACT OF SIGIR INVESTIGATIONS

SIGIR investigators have recovered or seized assets valued at about \$17.2 million as a result of court-ordered restitution and forfeiture. Investigators also prevented about \$3.8 million of incurred cost by alerting contracting officers to improper contracts. SIGIR’s investigative work contributed to improving controls in contracting and financial management and identified another \$2.1 million in potential recovery. For details, see Table B-2.

These impacts are the result of investigative actions from 346 open, closed, or referred cases. Seized funds were recovered from subjects identified in ongoing and closed SIGIR investigations. Recoveries are documented from fraudulent payments and seizures of unaccounted-for cash. Property seizures reflect the assessed value of currently seized assets purchased with illegally obtained funds and recovered in criminal investigations.
